

body. Patients turn to NeuroOptimal® for:

1. Aiding in physical, cognitive and emotional challenges such as depression, anxiety, PTSD, Alzheimer's, autism and sleep disorders.
2. Promoting overall general wellness. It makes an excellent supplement to a healthy diet and exercise routine.
3. Maintaining brain fitness despite naturally occurring brain changes we may experience as we age.
4. Reaching peak physical and mental performance. This is great for athletes looking for ways to overcome mental and physical blocks.
5. Improving academic performance for students who have a hard time moving past a mental block.

Learn more about the benefits of neurofeedback when you make an appointment at our center in Centennial or Englewood, CO 80111.
